

TruckEast

keeping your business moving

Size matters.

As one of the UK's largest independently-owned commercial vehicle dealers, our focus is the Eastern Counties.

Size in itself is simply a feature of our business, but with it comes the considerable benefit of comprehensive back-up across the region. This means convenient, local access to a one-stop-shop for servicing, repairs and maintenance.

As a customer, you may have one vehicle or many more. Whether you run a single truck, a large fleet, vans, trailers, or a fleet of coaches, TruckEast understands your need for operational efficiency and profitability at all times.

As you can see, through all of the services we offer, TruckEast is much more than just a Scania dealer. That said, we are very proud to carry the Scania badge for both new and used vehicle sales. It's a highly respected marque which guarantees premium quality trucks that are built to last and deliver the highest levels of performance, day in and day out.

- 12 main dealer points throughout Bedfordshire, Buckinghamshire, Cambridgeshire, Essex, Norfolk, Northamptonshire and Suffolk
